

SOFT TISSUE AUGMENTATION FILLERS

This is a list of all the products Dr. Skellchock uses to sculpt faces and restore youth. She will ask specific questions of you which will help her determine which products are best suited for your situation. No matter what filler she uses, Dr. Skellchock has her patients use topical numbing prior to the procedure. She also uses nerve block anesthesia, ice and other methods to decrease discomfort. Patients should avoid platelet inhibitors such as aspirin, NSAIA's and alcohol for the week before, and use Arnica both before and after to decrease the risk of bruising.

1. **ARTEFILL®:** (a) First FDA approved non-resorbable filler able to last 3-5 years (b) Polymethylmethacrylate beads in a bovine protein carrier with lidocaine (c) requires skin testing one month before (d) \$1500 for 0.8cc (e) initially "under" treat since product results improve over time (f) for moderate lines/folds
2. **COSMODERM®:** (a) bioengineered human collagen and lidocaine (b) comes from human-neonatal cell line (c) \$375.00 for 0.5cc (d) lasts 3-4 months (e) for superficial fine lines
3. **COSMOPLAST®:** (a) bioengineered human collagen and lidocaine (b) from human neo-natal cell line (c) \$475.00 for 1.5cc (d) lasts 4-5 months (e) for deeper lines and volume loss
4. **JUVEDERM®:** (a) cross-linked hyaluronic acid (b) FDA approved to last up to a year (6 months more common) (c) \$675 for 1cc (d) very natural feel - great for lips (e) less inflammatory than Restylane
5. **JUVEDERM ULTRAPLUS®:** (a) cross-linked hyaluronic acid (b) more firm than Juvederm (c) lasts up to a year (d) \$675 for 1cc
6. **PERLANE®:** (a) cross-linked hyaluronic acid (b) lasts 6-9 months (c) \$675 for 0.8cc (d) more firm than Juvederm or Restylane (e) for deep folds/volume loss
7. **RADIESSE®:** (a) calcium hydroxyapatite (b) last 8-12 months (c) \$850 for 1.2cc (d) great for volume loss (e) not for use in lips

8. **RESTYLANE®:** (a) cross-linked hyaluronic acid (b) last about 5-6 months (c) \$550 for 0.8cc (d) firmer than Juvederm
9. **SCULPTRA®:** (a) poly-lactic acid (b) last 1-2 years (c) takes 4-6 weeks to see results (d) great for volume loss (e) \$1100 per vial
